

RLI Insurance to license Prima Solutions IBCS UML Reference Model

Chicago, IL ---October 9th, 2007---Prima Solutions, provider of Prima IBCS™, the leading insurance object model, announced today that RLI Insurance Corp. has chosen its UML reference model, Prima IBCS™ to jump start the company's strategic initiative to speed delivery of automated solutions serving its underwriting and sales operations, as it pursues new markets.

Prima IBCS™ is an extensive insurance object model covering most of the insurance domain areas. It is the result of several years of R&D by insurance experts and object oriented specialists. Prima Solutions has described in UML2 over 100 best practice processes, dozens of business service definitions which are consistently defined with the IBCS classes. With more than 1000 documented classes spanning Life (group and individual), Property & Casualty (car, home) and Reinsurance, as well as new business, underwriting, contract lifecycle management and claims processing. Prima IBCS™ is packaged with a template-based generation toolset that supports a Model Driven Architecture (MDA) approach

***Karl Flower, Director, Architecture & Technology** said, "Evolving our SOA to the next level, we recognized the value of having a reference model to support our strategy and we considered Prima IBCS the best foundation to build the canonical model we need to unify our business and technology environments."*

*"We are thrilled to have RLI Insurance as a customer. It reinforces Prima IBCS™ footprint in the US P&C market with a prestigious new name adopting it at an enterprise level for its transformation projects" said **Alex Solomides, Director of Marketing, Prima Solutions***
