

Prima Solutions licenses its insurance business model Prima IBCS™ to Patni for the development or modernization of insurance business applications.

Paris – April 18, 2008 – Prima Solutions, the leading provider of SOA solutions to the insurance industry today announced that Patni Computer Systems Ltd. has chosen Prima IBCS™, the leading insurance business reference model, for its customizable insurance framework.

Prima IBCS™ provides a complete set of standard objects, services and business processes in UML format, as well as a Model Driven Approach (MDA) tooling to accelerate SOA application development. It covers life, non-life, reinsurance for personal and commercial lines.

Through the agreement, the two companies will integrate tailored Prima-based reference models with their framework enabling insurers to cost effectively accelerate the deployment of new Service Oriented Architecture (SOA) applications and the modernization of existing application portfolios.

“Prima Solutions is thrilled to have Patni as a strategic partner in providing tailored applications to insurance carriers across the world,” said **Hugues Delannoy, CEO, Prima Solutions**. *“Patni’s choice in selecting Prima Solutions not only reinforces our understanding of SOA, but also further demonstrates that our Prima IBCS™ model is now considered as one of the most comprehensive reference models for the insurance industry.”*

“We are delighted to partner with Prima Solutions,” said **Mohan Hastak, Sr Vice President, Insurance Practice**. *“Combining our strengths in a manner that reduces costs, risks and development time, will truly maximize the business value of SOA investment in the industry.”*

About Patni Computer Systems, Ltd.

Patni Computer Systems Ltd. (Patni) (BSE: PATNI COMPUT, NSE: PATNI, NYSE: PTI) is one of the leading global providers of Information Technology services and business solutions.
